12th Topios Conference in Rheumatology

3rd Edition

30 Sept - 2 Oct 2021
BLENDED FORMAT

cedoc.unl.pt
Thursday 30th September

18:00 - 18:15     Welcome
18:15 - 19:00    Inaugural Conference: Biomechanic evaluation and rehabilitation application (a definir)

Omic Approach

19:00 - 19:30    Topic 1: Single cell multiomics (a definir)
19:30 - 20:00   Open Ceremony
                Coro da NOVA

Friday 1st October

Enthesitis

16:00 - 16:30    Topic 2: Enthesitis: from pathophysiology to treatment
16:30 - 17:00    Topic 3: Enthesis ultrasound: as an option for disease activity and disease progression in spondyloarthritis?
17:00 - 17:30    Selected Abstracts for Oral presentations
                Microbiota
17:30 - 18:00    Topic 4: Intestinal Microbiota, HLA-B27 and Spondyloarthritis: Dangerous Liaisons

18:00 - 18:30    Topic 5: Microbiota as a marker for TNFi response in axSpA and Rheumatoid Arthritis
18:30 - 19:00    Topic 6: Nutrition competition in the intestinal microbiome
19:00    Closing Remarks Day 2

Saturday 2nd October

Regenerative Medicine

9:00 - 9:30    Topic 7: Skeleton Regeneration in animal models
9:30 - 10:00    Topic 8: Stem Cell and Muscle Regeneration in different physiopathological states and ageing
10:00 - 10:30   Topic 9: Low physical functioning and impaired performance of activities of daily life in post-COVID-19 patients: The recovery challenge
10:30 - 11:00   Selected Abstracts for Oral presentations
                Precision Medicine
11:00 - 11:30   Topic 10: Fibromyalgia patterns and its implications in therapeutic approach
11:30 - 12:00   Topic 11: Osteoarthritis phenotypes and novel therapeutic targets
12:00 - 12:30   Topic 12: Biomarkers for diagnosis and therapeutic approach in axSpA
12:30 - 13:00   Selected Abstracts for Oral presentations
13:00    Closing Remarks
